**Subject:** Conversation with Donovan, William

Nadrchal, David 1:12 PM:

Hi Will, have you heard anything from BEAD or EFED on memo finalizations?

Nadrchal, David 1:13 PM:

on Aldicarb, sorry i didn't say that part

Donovan, William 1:15 PM:

Hi David, We discussed in a meeting yesterday. The bottom line was that we are supposed to finalize everything tomorrow morning. Just assume the BEAD and EFED memos will be dated 1/7/21.

Donovan, William 1:16 PM:

BTW, I will confirm with Mike tomorrow at my general (assuming he doesn't cancel it of course). Is your general tomorrow?

Nadrchal, David 1:17 PM:

yes, it is.

Nadrchal, David 1:18 PM:

I think we have everything ready once we get those dates confirmed on the RA. Just probably need to confirm what EFED is putting in the drinking water memo

Donovan, William 1:21 PM:

We argued about that yesterday. Seems RD told them to take out the 2 inch scenario. I requested that remain so it matches the DEEM. At this point, it is probably best to stay with what we have. Can always do more work later if necessary.
